DATA SCIENTIST AND ARTIFICIAL INTELLIGENCE SPECIALIST <https://www.linkedin.com/in/andretomonagасhettini/>

SUMMARY

Second-year Data Science and Artificial Intelligence student at UEL with nearly one year of hands-on experience. After eight months in Service Desk sharpening my problem-solving skills, I transitioned to Software Developer in March 2025, where I now combine technical execution with analytical thinking.

Skilled in TypeScript, Node.js, and Angular, I'm actively expanding my expertise in Data Science, Data Analysis, and Data Engineering. What excites me most is transforming raw data into actionable solutions—turning complex problems into opportunities through code and analytics. Every dataset tells a story, and I'm passionate about writing the algorithms that help translate it.

ACADEMIC BACKGROUND:

- Currently studying Data Science and Artificial Intelligence at the State University of Londrina (UEL).

WORK EXPERIENCE:

CURRENT ROLE:

FULL STACK SOFTWARE DEVELOPER | NEXTERA ENERGY PROJECT @TCS

MAR 2025 – PRESENT

- As a Full-Stack Developer on the NextEra Energy Project, I design and implement scalable solutions while collaborating in an Agile-driven environment. My role bridges frontend and backend development, ensuring seamless integration and high-performance applications.
 - Develop responsive frontend interfaces using Angular and TypeScript.
 - Build robust backend services with Node.js, ensuring efficient data processing and API integrations.
 - Work with PostgreSQL for database design, optimization, and query performance tuning.
 - Apply Agile (Scrum) methodology to deliver iterative improvements in 2-week sprints.
 - Stay updated with emerging frameworks and best practices in TypeScript, Angular, and Node.js ecosystems.

PREVIOUS ROLE:

SERVICE DESK ANALYST | CONSTELLATION PROJECT @ TCS

AUG 2024 – MAR 2025

- As part of the Constellation Project, I contributed as an IT analysis and support while gaining valuable experience in technical support and problem-solving, which strengthened my foundation in IT and customer service. My responsibilities included:
 - Assisting in the development and implementation of IT solutions to meet business requirements.
 - Collaborating with senior analysts and team members to troubleshoot and resolve technical issues.
 - Participating in the analysis and documentation of system requirements and processes.
 - Supporting the maintenance and enhancement of existing IT systems.
 - Engaging in continuous learning to stay updated with the latest industry trends and technologies.

TECHNICAL SKILLS:

-Python	- TypeScript	-Communication
-PostgreSQL	- NodeJS	-Teamwork
-Agile Methodology	- Angular	-Proactivity

LANGUAGES:

- Portuguese: Native
 - English: Fluent
 - Spanish: Intermediate
-
